

ABHISHEK KUMAR

AI/ML Engineer | Data Scientist | Generative AI Developer
abhishekkumar13516@gmail.com | +91-9131984320 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven AI/ML Engineer and Data Scientist with hands-on professional experience as a Data Analyst and deep expertise in Machine Learning, Deep Learning, NLP, and Generative AI. Skilled in building LLM-powered applications, AI chatbots, and RAG systems using Python, LangChain, Mistral AI, and Prompt Engineering. Proficient in data analysis, Power BI dashboards, and automated reporting pipelines. Currently expanding expertise in AWS cloud deployment and advanced AI engineering workflows including AI Agents. Certified by Oracle, IBM, and Microsoft in AI and Data domains.

TECHNICAL SKILLS

Languages: Python, SQL

AI / ML & GenAI: Machine Learning, Deep Learning, NLP, LLMs, LangChain, Mistral AI, Prompt Engineering, AI Agents, RAG, OpenAI API, Hugging Face Transformers

Frameworks & Libraries: Scikit-Learn, TensorFlow, PyTorch, Keras, OpenCV, Pandas, NumPy, Matplotlib, Seaborn, NLTK, SpaCy

Tools & Platforms: Power BI, Streamlit, Jupyter Notebook, Google Colab, MySQL, MongoDB, GitHub, VS Code

Cloud & Deployment: AWS, Streamlit Cloud, Git/GitHub

Soft Skills: Analytical Thinking, Report Building, Team Collaboration, Leadership, Problem Solving

EDUCATION

Bachelor of Technology – Artificial Intelligence & Data Science

IIMT College of Engineering, Greater Noida

Oct 2022 – June 2026

Relevant Coursework: Artificial Intelligence, Machine Learning, Deep Learning, Data Analysis, Python, Business Intelligence

WORK EXPERIENCE

Trainee Data Analyst – Maharishi Vidya Mandir - National Office, Bhopal

Feb 2026 – Present

- Managing and analyzing ERP data across 150+ schools to generate actionable insights and performance reports for strategic decision-making.
- Developed automated data pipelines and interactive dashboards using Python, Power BI, and Excel to streamline reporting workflows.
- Performed data cleaning, transformation, and in-depth analysis to support both operational and strategic organizational goals.

Data Science Intern – SO Infotech Pvt. Ltd., Noida

Apr 2023 – Dec 2023

- Developed and deployed ML models for predictive analytics, improving forecasting accuracy and operational efficiency across multiple business use cases.
- Built Python-based applications: GUI Calculator, COVID-19 Data Analysis dashboard, Gender Prediction model, Attendance System, and Business Management System.
- Strengthened expertise in Python programming, data analysis, and GUI development through hands-on, production-oriented projects.

Data Science Intern – Prodigy InfoTech (Remote)

Dec 2023 – Jan 2024

- Performed end-to-end data cleaning, preprocessing, and EDA on Titanic survival data and World Development Indicators datasets.
- Analyzed and visualized sentiment trends in social media data, delivering insights on public opinion and consumer behavior.
- Built analysis pipelines using Python, Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn to extract actionable business intelligence.

PROJECTS

Fake News Detection System [\[GitHub\]](#)

- Achieved strong predictive performance using Logistic Regression, Gradient Boosting, and LSTM-based models for news credibility assessment.
- Applied TF-IDF vectorization and text preprocessing, delivering 30% improvement in classification performance over baseline.

AI-Powered Document & Signature Verification System [PRODUCTION – Deployed at Vedanta] [\[GitHub\]](#)

- Built a production-grade AI document verification platform using TensorFlow, MobileNetV2, EasyOCR, OpenCV, and Flask for automated document classification and signature validation.
- Implemented deep learning and OCR pipelines with FAST API integration, enabling real-time processing of PDFs/images and improving verification accuracy and workflow automation.

Stock Price Prediction – LSTM (Published) [\[GitHub\]](#)

- Developed an LSTM-based stock price forecasting model achieving MAE < 1.5% on test data, outperforming traditional time-series models by 25%.
- Processed 1,500+ days of historical stock data using TensorFlow/Keras for precise trend prediction and investment analysis.

AI Chatbot with LangChain & Mistral AI [\[GitHub\]](#)

- Built a multi-turn conversational AI chatbot using LangChain and Mistral AI with context-aware prompt engineering and Streamlit-based UI.
- Integrated memory management and dynamic prompt templates to deliver accurate, context-grounded AI responses.

Multi-Agent AI Research Assistant [\[GitHub\]](#)

- Developed an Agentic AI application leveraging multiple autonomous agents for information retrieval, web scraping, research synthesis, and report evaluation.
- Designed a complete research pipeline with LLM-powered content generation, critique workflows, session-state management, and real-time progress tracking in Streamlit.

CERTIFICATIONS

Oracle AI Foundation Associate [\[Certificate\]](#) – Oracle | Apr 2026

Career Essentials in Generative AI [\[Certificate\]](#) – Microsoft & LinkedIn | Dec 2023

Career Essentials in Data Analysis [\[Certificate\]](#) – Microsoft & LinkedIn | Dec 2023

Artificial Intelligence Virtual Internship [\[Certificate\]](#) – IBM SkillsBuild | Jan–Feb 2023

Python with Data Science [\[Certificate\]](#) – Ducat, Noida | Apr–Dec 2023

IIoT Using ThingWorx [\[Certificate\]](#) – IIMT, Greater Noida | Oct 2022–Apr 2023

Advanced Excel Financial Calculations [\[Certificate\]](#) – Elearnmarkets | Aug 2022

WORKSHOPS & BOOTCAMPS

Workshop on Data Science [\[Certificate\]](#) – Ducat | Mar 2025

Workshop on Power BI [\[Certificate\]](#) – Ducat | Mar 2025

Bootcamp on Generative AI [\[Certificate\]](#) – YHills | Sep 2024

Bootcamp on Structured Query Language [\[Certificate\]](#) – YHills | Nov 2024
